Experience

UX Developer, Indeed, Richmond, VA, 2022 -2024

- Specialized in UX development and support across multiple applications in the organization at every part of the development process, from design to implementation.
- Worked with engineers, product owners, product managers, and designers.
- Developed primarily with React to develop user-friendly features, improve A11y coverage, and clean up existing user experiences.

Senior Software Engineer, Zello, Austin, TX, 2020 - 2022

- Developed and maintained a desktop app for dispatchers to exchange push-to-talk, image, and text messages with fleets of mobile app users.
- Worked with product owners and design teams to turn ideas and mocks into code.
- Worked primarily with React, Redux, Sass, Webpack, and Electron.

Software Engineer, Vrbo, Austin, TX, 2016 - 2020

- Developed and maintained Node applications for user acquisition, user onboarding, reservation management, and rate management.
- Worked primarily with React, Redux, Less, Hapi, GraphQL, Apollo, and Webpack.
- Used Agile development lifecycle.

Software Engineer, A+ Federal Credit Union, Austin, TX, 2014 - 2016

- Used Angular, Bootstrap, and .NET to build a loan application system web app.
- Used C# and .NET to build a chat tool web app
